

Tessera Overview

AI that understands your enterprise

Tessera combines the dependability of a trusted systems integrator with the speed of an AI innovator. Our vendor-agnostic multi-agent platform provides a single view across your IT architecture. Pre-trained on thousands of enterprise landscapes, Tessera adapts to your specific environment, harmonizing systems and data to deliver secure, governed execution across ERP and other critical systems.

Why Tessera

- Accelerate time to value and reinvest in growth priorities
- Enterprise-grade governance and controls for regulated industries Adapts to your environment and evolves with new data and workflows Built on 10+ AI publications, 7 patents, and trained on more than 500 years of business process expertise

Tessera Platform

Data Integration

Secure, role- and lineage-aware connectors for batch/stream/legacy/cloud

Process Intelligence

Automated mapping, granular impact /risk/change analytics at scale, code aggregation

Orchestration Engine

No-compromise workflow, rapid iterative scenario modeling with health state monitoring

Governance Guardrails

Including security controls, business policy-driven automation, abnormality monitoring, full rollback and sandboxing

Decision Capture

Structured modernization traceability, instant record and syncs with your business APIs, regulatory-ready reporting

Tessera Approach

Our patented multi-agent orchestrator ingests and documents a current solution

Custom AI algorithm maps processes to best-practices & standards from our 100,000 page knowledgebase

AI model identifies defects, anomalies, and best practice deviations

AI model generates new code implementations, remediates existing code, and identifies testing risks

Use Cases

→ SAP Migration Acceleration

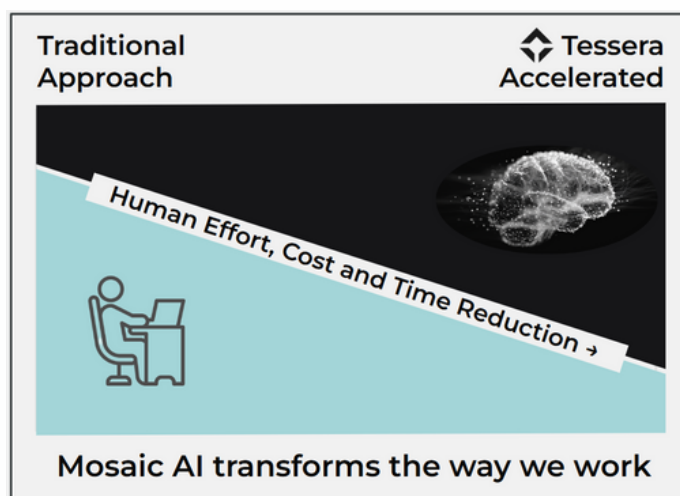

→ Code Remediation & Modernization

→ Crosss-Platform Integration

→ Cross-System Data Harmonization

→ M&A ERP Consolidation

→ Automated Business Workflows

Impact

50% reduction in migration cost

95% reduction in manual tasks

10x speed of migration

100-200X faster delivery than manual code remediation

About Tessera

Tessera was founded with the vision of creating a new paradigm for enterprise evolution, where business systems across the entire enterprise adapt, harmonize, and improve continuously. Our team combines best-in-class consulting backgrounds (SAP MaxAttention, McKinsey, Accenture), AI PhDs and researchers from Google, Microsoft, OpenAI, Tencent, Netflix, Apple, & Meta, and is backed by Foundation Capital.
